MASONRY

This program is designed to train a student to become a brick/block mason and craftsman who can construct walls, partitions, fireplaces, chimneys, and other structures from brick. Training to use concrete, cinder block, tile, marble, and stone is also accomplished since today's mason must be skilled in all aspects of this field. A skilled craftsman must know his/her tools of the trade; therefore, extensive training is accomplished with chisels, trowels, jointers, gauge lines, plumb bobs, and levels. It also includes instruction in common systems of framing, construction materials, estimating, and blueprint reading.

Fields of potential employment:

Stonemason
Brickmason
Brick and Blocklayer
Tile Setter
Stonemason Supervisor
Brickmason Supervisor
Masonry Contractor

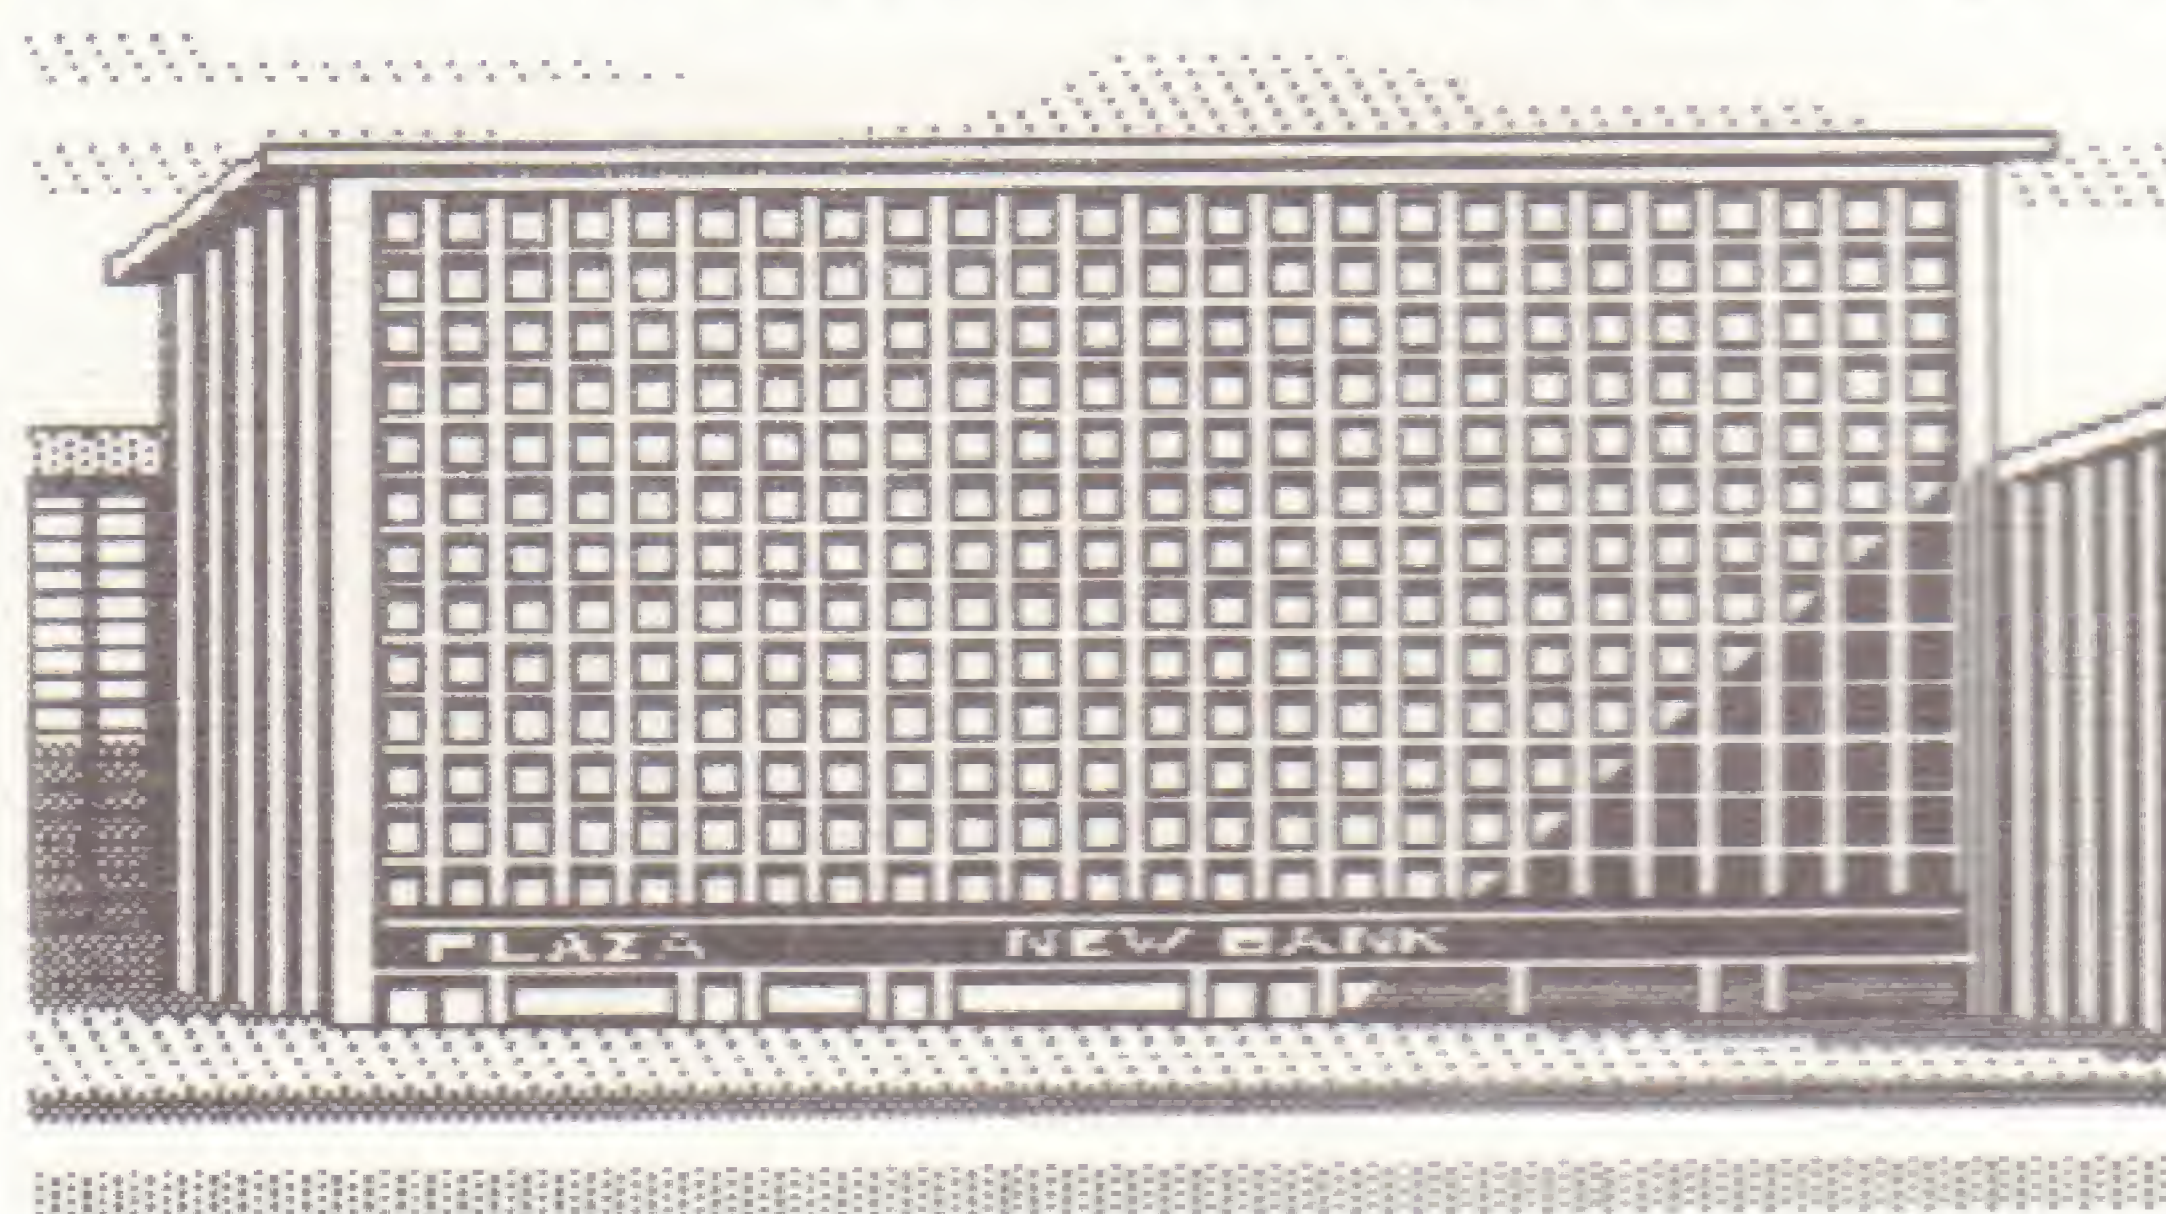

Employment Outlook

Employment for masonry is expected to increase as fast as the average for all occupations through the mid 1990s. Population and business growth will lead to a demand for more houses and other structures, thus increasing the demand for masons. Alabama is going to need over 900 personnel by the year 2000. Most of these will come from those

masons who retire, advance in their jobs, or separate from the trade entirely.

Required Courses:

- MAS-111 Introduction to Masonry:
Foundations, Footings, Pointing,
and Jointing
MAS-113 Introduction to Blue Prints
MAS-121 Brick and Block Laying
